Can you print out a picture of two of the attached and leave on Lorenzo's desk?

These are on Magnolia and I already spoke with him about it.

Thanks.

Hey Aaron,

I would send BSS staff out to fix this on Magnolia, but chances are that your clean team will get out there sooner. Would you mind having them clean up the dirt that has been kicked out of the planters? Let me know, because I am happy to send our crews out, but I don't know when they will be able to get them out there.

Thanks a million!

Best,

Hi Dove I am referring this to Angelina Schneider in my office as I do not cover North Hollywood area for the Councilmember.

Hi,

I hope you're well. I have attached some photos in hope that something can be done to address this matter.

I have passed this along to the powers that be but months have gone by and nothing has been done so I thought I would reach out to you and see if you could help.

Many of our customers park on Magnolia and this was the city's solution to the large holes that were here that people were tripping on. However now this creates another issue. Some individuals have slipped on the decomposed granite plus when it gets wet it is more slick and customers track it into their automobiles.

And it is unsightly. Do you think something could be done to better address these areas along Magnolia to the east and west of Lankershim?

Also there are many places where the cosmetic bricks have broken and the city isn't fixing them. I know a lot of money went into beautifying North Hollywood so I would hope they would continue to maintain it. Thank you so very much for your time.

Be well,
Dove
